LEARN TO CREATE **MIRACLES** IN THE BLINK OF AN EYE

In this intensive class, you learn to free tumor energies from the body, creating physical plane manifestations and spontaneous remission. This life-transforming class is of the path of mastery as passed down in the sacred tradition of the Curanderas of Mexico.

Divine Intervention may be referred to as the loudest, most specific prayer that can call the forces of nature and heaven together hand in hand. As Source intervenes in a situation, through minister or practitioner, the laws of a larger physics come into play. Become an instrument of Source and raise the vibrations for Source using specific dimensions and emanations of a precise hertz frequency.

As each of us advances on our spiritual path, the tools and techniques we use must advance as well. Our methodologies must allow us to touch more people in more impactful ways.

THE COURSE THAT WILL **CHANGE YOUR LIFE**
